

choosing a path...

DREW KAPP

My degree?

Geography (earned) & Hawai'i Lifestyles (in progress)

Why those?

Because I appreciate the holistic nature of these disciplines, and I love to be in educational environments!

Who introduced me to this path?

My 'ohana, Hawai'i role models, and the 'āina

What's passion, and what is mine?

That which provides energy and a life force... engaging people with our environment

What's Hawaiian about Geography?

Our emphasis on interconnectedness and interdependencies, our embrace of a multiplicity of perspectives, our role as a science that always includes people and culture, our ability to break down artificial nature/culture dichotomies, our place based-ness, and how we honor and serve the environment.
